

The EVERYDAY DANCE

process work with movement in Ramat HaSharon, Israel, 30. April - 2.May 2009

A processwork seminar with Ivan Verny,,

We move all the time just as we are moved all the time.

This seminar is about how to track the dream process which is dreaming us and our life. And how to track it through movement.

We will be experimenting with process work movement tools, getting to the root of the movement impulses, discovering some power spirits and allowing them to change our world views and move our dreams.
